Hurricane Preparedness Check List

Farm & Barn To Do List

- Make sure ALL horses are micro chipped and numbers recorded
- Check and repair fences (walk the fence line)
- Clear trees and limbs
- Remove debris
- Store jumps/tables/chairs
- Examine barn for loose shingles/debris
- Move tractor, trucks and trailers into large pasture
- Spare fuel, store in trailer or stall, four 5 gallon cans, and all vehicle tanks full
- Get tie downs for trucks and trailers
- Store feed-7 day supply-in water proof containers
- Store hay under tarps in a stall off the ground
- Water-15-20 gal/horse/day (fill up boats, 55 gal barrels, pools, troughs)
(Bleach –8 drops/gallon if contaminated)
- **CUT OFF POWER** to the barn as storm approaches

Farm & Barn Equipment List

- WATER-Hand pump for well (pitcher pump)
- WATER-55 gal drums (down spout on barn)
- WATER-pond, lake, pool, boats, troughs
- Generator 4 hp or higher (5000 watt)
- Extension cords (50-100 ft)
- Tools- hammers/nails
- Fencing materials –field fence (no barbed wire), fence tape and posts.
- Chainsaw-extra chain, 2 cycle oil, bar /chain oil/gas
- Ropes and tow cable, chain with hooks
- Ladder
- Wire cutters and pry bar
- Rolls of black plastic and staple gun, large tarps
- Flood lights- work light and hand held car plug in type (1 million candle power) Headlamps
- Waders or snake boots
- Extra halters and lead ropes (in plastic storage bin)

Medical supplies

- Wound medications (betadine scrub, nolvasan ointment, triple antibiotic)
- Bandage material (sheet cotton, vet wrap, leg wraps, telfa pads, duct tape)
- Anti-inflammatory meds- Banamine, Bute,
- Sedatives- Acepromazine, Xylazine
- Antibiotics- SMZ tablets, Procaine Penicillin
- Insect repellent
- Syringes and needles
- Antibiotic eye ointment

Personal supplies

- Canned food or MRE's (some last for 25 years)
- WATER-freeze 2 liter bottles (can use to keep your fridge cool) Yeti coolers are great and can keep food cool for days.
- WATER- (a "Water Bob" , place in bathtub, will hold 55 Gallons, cost \$20)
- WATER- Additional water source, 55 gal drum set up under gutter down spout. Drill and tap with standard spigot, multiple head lamps, better than flash lights as your hands will be free to work
- Generator and extension cords
- Gas grill (spare Gas cylinder)
- Small cheap A/C unit (\$ 100) store in closet
- Solar yard lights. Leave out during the day and bring in a night (no heat and safer than candles and lamps)
- Cash- with power out ATM's and banks won't be open
- Fire arms (if you have a generator everyone will know), (A great deal of looting and theft takes place after storms
- Personal medical supplies

Important Documents

- Scan copies (or take digital photos) of all important documents and put them on a flash drive, ie. Health Certificates, Coggins, Microchip ID numbers, photos of horses, registration papers, proof of ownership.
- Personal papers- marriage certificate, birth certificates, driver's license, SSN, credit cards
- Video all of your valuable items for insurance documentation
- Keep extra flash drives in multiple places ,trailer, glove box, by back door (be careful if sensitive info on these drives)

JACKSONVILLE EQUINE ASSOCIATES SOUTHERN GEORGIA EQUINE

Evacuation Plan

- Know where you are going
- Notify friends and family (when and where you are going and how to contact you)
- <http://evac.flahorse.com/>
- <http://www.aaep.org/info/horse-health?publication=786>
- Plan your route, have maps, extra fuel, how long will you be on the road.
- Pack supplies/feed and hay
- Personal supplies, important papers, flash drive, \$\$\$\$\$
- 72 hour rule- get out before traffic gets heavy and weather turns bad (bridges close with high winds)
- **TURN OFF POWER**

NOTES:
